#### Over 50 years of research and technology

Since 1954 Arpa Industriale has been designing and manufacturing panels with very high quality HPL technology for the most diverse applications: from architecture to interior design, from healthcare to shipyards, from transport to hospitality, from retail to kitchens. Arpa Industriale offers a vast range of choices of products, extremely varied in both structure and appearance.

Arpa HPL are produced at the 150,000 sqm plant (over 1.6 million square feet) in Bra, Piedmont, with all the originality of expressive design and creativity that the label "made in Italy" stands for.

The over 50 years of investment in research & technology and staff training have enabled Arpa to gain a leading position on the international markets and a reputation for great reliability: Arpa is a company that stands out for the expertise of its staff, the quality and variety of what it offers, its manufacturing flexibility and its range of services.
