

Total Cubicle Solutions take pride in providing a personalised, professional and cost effective service and can recommend our Mirage Range in the following applications:

- Hospitals
- Health Centres
- Sports Stadiums
- Schools & Colleges
- HM Prisons
- Night Clubs & Industrial applications

Total Cubicle Solutions can offer a fast turnaround for the tightest of deadlines and having built up a reputation for superb after sales support, our goal is to supply your cubicles with the minimum of fuss, ensuring that from the start to finish, your project runs smoothly.

All this, and the added reassurance that you are dealing with people with over 45 years experience in the industry.

## Why Choose Mirage?

When you require a solution that just works, Mirage provides the answer! Suitable for pools or high traffic areas, Mirage offers an attractive, cost effective solution.

Manufactured in high quality, 13mm compact grade laminate, the system is versatile and is suitable for WC, shower and changing room applications. Mirage's colour flexibility has always been a key feature, providing customers with contrasting colours to highlight components and to bring creative flair into the washroom.

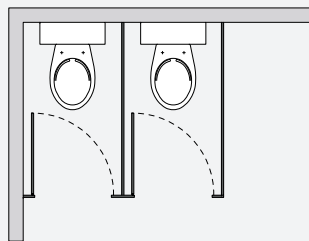

To comply with new Building Regulations, part M, Total Cubicle Solutions has added enlarged and ambulant cubicle options to the Mirage range. Together with our service promise, you are now in the position to specify, with confidence, a stunning washroom installation for any market sector, at an economical price.

## Typical Cubicle Dimensions

The Mirage Range of Vanity Cubicles are constructed from high quality 13mm Compact Grade Laminate - a high performance material designed for use in high-moisture, high-traffic areas.

The Mirage Range of Cubicles is suitable for:

- WC Cubicles
- Changing Cubicles
- Shower Cubicles

We would recommend our Mirage Range for Hospitals, Health Centres, Sports Stadiums, Schools & Colleges, HM Prisons, Night Clubs and Industrial applications.

## IPS Features

The Mirage Range of IPS Units are supplied pre-fitted to softwood frames. The Panels are manufactured from 13mm Solid Grade Laminate and are secured to the frame using concealed clips - allowing them to be easily removed for maintenance and servicing.

## Typical Layouts

Corner Layout

Between Walls

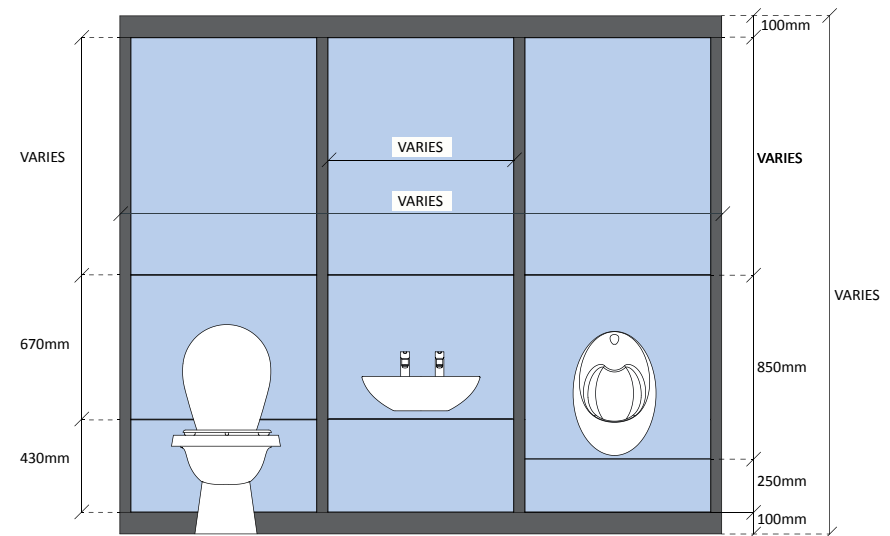

Free Standing

Hole in the Wall

## Panel Splits

Our IPS Units are suitable for use with Toilets, Urinals and Wash Hand Basins, the overall width and height of our IPS Units are made to measure. As standard our design consists of a 3-panel split of which there are two variants, one designed for WC's and Wash Hand Basins, and the other for Urinals. The diagram below sets out our standard dimensions.

# Mirage Fittings - Black Powder Coated

Mirage fittings are built to stand the test of time. As standard they are supplied in a Black Powder Coated finish, Stainless Steel is available as an option.

## Industry leading Technology

Using a unique digital printing technique Total Cubicle Solutions can personalise Easy-Clad and Shower-Wall panels with your own text and images creating the perfect feature wall.

Not only are the images resistant to UV light helping to maintain their colour even in outdoor conditions, the process also coats the panels in an antibacterial agent.
